

TIPS FILE - HOME CARE PRODUCTS

LDC

(Light duty concentrate)

Highly economical, multipurpose, non-flammable, concentrated, biodegradable (no environmental pollution)

Non-toxic, highest quality, guaranteed not to remove colours,
100% money back guarantee on quality, save money on unnecessary packaging, we do not sell water. Our products are versatile and can be used with other products.

Designed to remove plant and animal fat stains. Contains coconut oil. Non-toxic, 100% bio-degradable. Not suitable for use in automatic dishwashers.

Concentrated solution

1 **Hand cleaner** - apply concentrated before doing any dirty work, apply again afterwards, rub in and rinse or wipe off.

2 **Bubble bath** - a capful under tap - no dirty ring left behind in bath.

3 **Brush teeth** - 1 drop with toothpaste once a week.

1:5 MIXTURE (MAKE 6 LITRES)

1 **Fruit & Vegetables** - removes insecticides and other poisons, makes lettuce crisp and fresh. A few drops in a vase makes flowers last longer.

2 **Dishes** - Wash dishes in LDC. No greasy feeling, rinses cleanly. Leaves no dirty ring behind in Kitchen sink as it keeps oil and dirt in suspension.

3 **Washing** - Use +- 1 squirt of 1:5 mixture in washing or hand wash - safe for delicate fabrics. Removes stains from "wash & wear" fabrics - nylon, cotton, polyester, lycra, latex, etc

4 **Jewelry** - Soak and rinse. Dry well

5 **Shaving**

6 **Windows & mirrors** - 1 squirt of 1:5 mixture into spray bottle, fill with water. Spray and wipe off. The most economical window cleaner on the market.

7 **Pet Shampoo** - kills fleas, makes coat shiny without skin irritation

8 **Camping** - dish washing liquid, bath soap, hair shampoo, washing clothes, etc. You have less to pack.

1:2 MIXTURE

1 **Typewriters/computers** - spray on damp cloth and wipe off.

2 **Make-up** 1:2 removes make-up

3 **Kills lice and removes chewing gum** from children's hair, removes **stubborn Elastoplast marks.**

Tree gum and chewing gum on clothes - apply 1:2 mixture and leave for 20-40 minutes. Ensure garment remains wet and brush off.

OTHER USES

1 **Swimming Pool** - 240 ml LDC/45000 LITRES OF WATER, PREVENTS SUNTANLOTIONS BUILDING UP ON THE POOL SIDES. Does not replace chlorine.

2 **Blocked drains** - pour 2 capfuls (concentrate) in the basin and add water. Remove plug. Regular used of LDC will ensure a clean drain. Removes bad drain odors.

3 **Removing wall paper** : 15-20ml in 10 liter lukewarm water. Apply to surface with a sponge and allow to soak. Scrape off with a putty knife.

4 **Windscreens** - Few drops LDC or Carpet Glo in water reservoir.

SUPER 10 FRAGRANCE

Heavy duty, multi-purpose cleaner

Highly economical, multipurpose, non-flammable, concentrated, biodegradable (no environmental pollution)

non-toxic, highest quality, guaranteed not to remove colours,

100% money back guarantee on quality, save money on unnecessary packaging, we do not sell water.

Our products are versatile and can be used with other products.

Heavy duty, multi-purpose cleaner (Especially for removing petroleum based dirt). Equally effective in hard baked ovens and on precious carpets. Safe to use on anything where water can be used.

FULL STRENGTH

1 Stained toilet - boiling water and 4 capfuls (20ml) of Super 10. Leave to stand over night, scrub.

2 General cleaner -walls and floors) 1 teaspoon SUPER 10). Gum or tar -wipe on concentrated, wait 10 minutes and wipe off.

3 Kitchen towels -1 tablespoon Super 10 plus 1 teaspoon Oxygen bleach in warm water (Allow to stand over night)

4 Glass -2 drops in spray bottle with water -clean mirrors, windscreens, chrome and stainless steel. Wipe off with damp cloth.

1:3 MIXTURE

1 Floor wax stripper -scrub with a brush, wait a while and scrub again with warm water.

2 Oven -pre-heat to 95oC (185F) switch off and spray well with Super 10. Add squirt of LDC in spray bottle, Allow to cool for 10-15minutes and wipe off with steel wool or a nylon scourer. Then wash with Wash 'n Wax : 5ml to 5 liter of water for easier cleaning. Stove hob -spray on and leave a while. Wipe off. If very dirty and oily, repeat the process.

3 Car Engine parts and tools -soak for 20 minutes in 1:3 mixture, scrub with a brush and rinse. Oil marks on cement paving -spray or paint on mixture, wait 20 minutes and scrub with plenty of warm water.

4 Shower tiles -spray, wait an hour, and scour with a sponge. Then wash with WASH'N WASH. 5ml to **5l water** -prevent re-growth of mould.

5 Stubborn marks on bath (rust, etc) -make a paste of G1 and Super 10 concentrate -wipe on and leave over night. Mix equal amounts of Super 10, LDC, G1 and Carpet Glo with warm water, and apply to the stubborn stains, if necessary. Do not mix with paraffin.

1:20 or 1:10 MIXTURE

1 Marks on carpets -spray very gently with the back of a spoon or fingers (DO NOT RUB) blot with paper towel. Removes the following with ease: ink, blood (first dampen with cold water) tea/coffee (spray, agitate gently, wait a while, blot with paper towel). Wax crayon (spray, wait, agitate, blot), grass stains, grease, oil, lipstick, rust marks on fabric, shoe polish, tomato sauce, urine, wine, fat, etc. (Spray, wait 5-10minutes, spray again and blot)

2 Combs, brushes, curlers -soak for 20 minutes, wash and rinse.

3 Irons -spray on warm iron and rub dirt off.

4 Removes shoe heel marks, cleans pet cages, vinyl and any other areas where water may be used - removes marks from wallpaper -spray & gently pat to lift dirt

5 Dry cleaning -fine spray (using distilled water to prevent water marks), wait and brush or wet a clean white cloth with Super 10. Rub mark. Wipe with clean water to prevent water mark. Collars and cuffs -spray and rub.

6 Ants and aphids -kills insects on contact. Spray only insects, not necessary to spray entire plant.

7 Old stains on clothes and carpets. Use white vinegar and water first, then spray Super 10 and allow to dry. If not completely clean, use 1:3 mixture.

8 Fridges, stoves and microwave ovens -leaves no soapy odour.

9 Paint work - enamel paint (NOT PVA) -spray, starting at bottom and working upwards on the wall. **10/Wood work** - spray and wipe with a clean cloth.

Other uses

Hands : Spray hands after working with onions. Removes the odour.

Floors : non-waxed -5ml in 10 liters warm water. Apply with cloth or mop and allow to soak. Wipe clean and rinse with warm water before applying FANTASTIK.

Nylon : White nylon that has disco lour, soak overnight in a mixture of 5ml in 1 liter water, hang in the sun without rinsing.

CARE DISINFECTANT

SHOULD NOT BE MIXED WITH OTHER
DETERGENTS

Highly economical, multipurpose, non-flammable, concentrated, biodegradable (no environmental pollution).non-toxic, highest quality, guaranteed not to remove colours, 100% money back guarantee on quality, save money on unnecessary packaging, we do not sell water. Our products are versatile and can be used with other products.

Longer shelf life than other disinfectants. Complies with all requirements for SABS 636. Solutions kill 99.9% of indicated organisms with a 5 min contact period.

1 **1:3 - strong disinfectant** -for drains, toilets, etc. **1:10 - general disinfectant** - in hair salon, for combs, brushes, scissors, etc. Hygienic in hotels, restaurants, bakeries, laundries and where food is handled.

2 **5 ml** in last rinse will leave **washing** free of any chemical residue. Will remove the smell of **sour milk** (even in the car)

Disinfects - basins, drains, etc. Disinfects **wounds** (heal faster) Reduces bleeding from nose and small wounds.

4 **Bruises** -soak cotton wool in CARE and press onto bruise. Can also be used on **mild burns** (also apply Aloe Vera Gel)

5 **General household** 1:50 Drains, garbage can, floor, cloakrooms.

6 **Hospital use** 1:10 as a disinfectant
Hospital theater use 1:3

7 **Bath Horses and clean Cows eyes** - this will keep flies away

G1 - LAUNDRY COMPOUND (Semi or Fully automatic washing machines)

Saving -use between 10g and 20g against other powders' 80 -100g. Is bio-degradable. NB: Before using the first time, do an entire cycle using an old hand towel and half a scoop of G1 to remove the residue /build-up in the washing machine. Effective at a variety of temperatures. Safe on all washable fabrics. Free rinsing -leaves no skin irritants or fillers in the material. 100% pure active soap powder.

You can - to release the oxygen bleach - dissolve in a cup with hot water + 60°C.

Hand wash -soak overnight, rub and rinse, pre-spot with Super 10 , 1:20 dilution. LDC may be added because of low foaming.

Machine wash -slime does not build-up in the machine pipes. Will not damage the metal parts of the machine. Oxygen bleach has already been added to remove stains. If you add more oxygen bleach, raise the temperature to 60oC. Ideal for automatic washing machines because of low foam.

Tea and coffee stains -dampen garment and sprinkle with G1, leave for a few minutes and rub with a sponge before rinsing. Washing will not yellow. Enzymes break down fats and proteins.

Scourers -make a paste using Super 10 and G1.

Toilet -Sprinkle bowl, leave for 5 minutes, brush and flush.

WASH 'N WAX

Wash 'n Wax will:

Clean and wax your car: The first time you use the product on your car, remove the old wax by doing the first wash with SUPER 10 mixed 1/3. Then take a capful of Wash 'n Wax and keep it under the tap, when the water runs into your bucket, this will give you a lot of foam.

Easy to use, the protection will last between normal wash sequences. It removes both oily and non-oily soils. As with all GNLD products Wash 'n Wax is highly concentrated and economical, with a bottle of 500mg you can do 100 wash.

Because this product is biodegradable, you can wash your car in your garden and water the garden at the same time.

To demonstrate take a small medicine bottle and put 1 capful of Wash 'n Wax to show how little you using.

Clean your ceramic tiles, floor or shower.

Rinse your oven, grills, deep freeze, stop grease from sticking and reduce ice clinging onto the freezer walls.

clean your silverware and prevent tarnish.

LC 30 (5 LITRES)
